Total Test Cases

| | |
|-----------------------------------|---|
| 1. test_addToCart | a) testAddToCart: Add product to cart b) testAddProductWith2Quantity : Add product with quantity 2 to cart c) testAddMultipleProduct : Add multiple products to cart |
| 2. test_addToWishlist | a) testAddToWishlistNoLogin : Add product to wishlist when not logged in b) testAddToWishlistLogin : Add favorite products with logged in account |
| 3. test_checkoutGuest | a) testCheckoutWithGuestAccount : Checkout with a non-logged-in account b) testGuestAccountEmptyRequiredInput : Checkout with empty fields |
| 4. test_compare | a) testCompareProducts: Compare 2 products with each other |
| 5. test_login | a) testLoginAndCheckOut : Login() and Logout() b) testWrongEmailLogin : Login with invalid email format c) testInvalidWrongLogin : Login with incorrect password d) testEmptyPasswordLogin : Login with empty password e) testEmptyEmailLogin : Login with empty email f) testSpecialCharacterEmailLogin : Login with email containing special characters g) testSpecialCharacterPasswordLogin : Log in with password containing special characters h) testSpecialCharacterPasswordAndEmailLogin : Log in with both email and password containing special characters i) testSqlInvalidToLogin : Login with SQL statement that returns True |
| 6. test_loginCheckoutExistAccount | a) testCheckoutWithExistAddress: Check out with previously saved address b) testCheckoutWithNewAddress: Check out with new address |
| 7. test_navigation | a) testClickDesktopsAndMac: Check navigation to go to desktop and mac page b) testShowAllDesktops: Check navigation to show desktop page c) testMenuNavigation: Check all navigation menu |
| 8. test_register | a) testRegisterValidData: Check valid data to register b) testRegisterEmptyRequiredInput: Register with empty field c) testRegisterInvalidEmail: Register with invalid email d) testRegisterExistAccount: Register with exist account e) testNoClickPolicy: Register with not click policy f) testRegisterSpecialCharactersInName: Register with special character in field name |
| 9. test_responsive | a) testResponsiveDesign: Check other platforms |
| 10. test_search | a) testCorrectSearchProducts: Search correct text |

| Result  | Test | Duration |

| Passed | test_search.py::testSearchWithSpecialCharacterInText | 00:00:12 |

testWriteReview: Nội dung được viết review và lưu nhưng không thể lưu và không xuất hiện review mới viết

| Test Case ID | Description | Steps | Expected Result | Actual Results |
|---|---|---|---|----------------------|
| TC001: testAddToCart | Add iPhone to cart and verify success message. | <ol style="list-style-type: none"> 1. Go to the OpenCart homepage. 2. Find and click the "Add to Cart" button of the iPhone product. 3. Wait for the success notification. 4. Confirm the notification containing the word "iPhone". | Product added to cart, notification contains "iPhone". | As expected result |
| TC002: testAddProduct With2Quantity | Add MacBook to cart twice and check quantity. | <ol style="list-style-type: none"> 1. Go to the MacBook product page on OpenCart. 2. Click the "Add to Cart" button for the first time. 3. Click the "Add to Cart" button a second time to add the same product again. 4. Find and click the shopping cart icon. 5. Get and check the product names and quantities in the shopping cart. | The product "MacBook" appears in the cart with a quantity of 2. | As expected result |
| TC003: testAddMultipleProduct | Add iPhone and MacBook to cart, verify both are listed. | <ol style="list-style-type: none"> 1. Go to the OpenCart homepage. 2. Find and click the "Add to Cart" button of the iPhone product. 3. Go to the MacBook product page. 4. Find and click the "Add to Cart" button of the MacBook. 5. Click on the shopping cart icon and check the product names. | Both "iPhone" and "MacBook" products are in the cart. | As expected result |
| TC004:testAddToWishlistNoLogin | Attempt to add iPhone to wishlist without login, check for login prompt. | <ol style="list-style-type: none"> 1. Go to the "iPhone" product page. 2. Click the "Add to Wish List" button. 3. Check the login prompt that appears. | A message appears saying "You must login" asking the user to log in before adding the product to favorites. | As expected result |
| TC005:testAddToWishlistLogin | Log in, add iPhone to wishlist, confirm success. | <ol style="list-style-type: none"> 1. Log in to your account. 2. Go to the "iPhone" product page. 3. Click the "Add to Wish List" button. 4. Check the success message that appears. | Success message is displayed after adding product to wishlist. | As expected result |
| TC006:testCheckoutWithGuestAccount | Checkout as guest with HTC Touch HD, enter required info, complete order. | <ol style="list-style-type: none"> 1. Go to the "HTC Touch HD" product page. 2. Tap the "Add to Cart" button. 3. Go to the shopping cart page. 4. Tap the "Checkout" button. 5. Select the guest account option. 6. Enter shipping information. 7. Select a shipping method. 8. Select a payment method. | The message "Your order has been placed!" appears. | As expected result . |

| | | | | |
|--|--|--|--|--------------------|
| | | 9. Confirm order. | | |
| TC007:testGuestAccountEmptyRequiredInput | Begin guest checkout, skip required fields, verify error messages. | <ol style="list-style-type: none"> 1. Go to the "HTC Touch HD" product page. 2. Tap the "Add to Cart" button. 3. Go to the shopping cart page. 4. Tap the "Checkout" button. 5. Select the guest account option. 6. Tap the "Continue" button without entering the required information. | Displays an error message: "Warning: First Name must be between 1 and 32 characters!" | As expected result |
| TC008:testCheckoutWithExistAddress | Log in, checkout with HTC Touch HD using an existing address, confirm order success. | <ol style="list-style-type: none"> 1. Go to the OpenCart login page. 2. Enter your email and password in the corresponding fields. 3. Click the "Login" button to log in. 4. Go to the HTC Touch HD product page. 5. Click the "Add to Cart" button to add the product to your cart. 6. Go to your cart. 7. Click the "Checkout" button to start the checkout process. 8. Select your saved shipping address from the list. 9. Click the "Continue" button to confirm your shipping method. 10. Select Flat shipping method. 11. Click the "Continue" button to continue. 12. Click the "Continue" button to confirm your payment method. 13. Select Cash on Delivery as your payment method. 14. Click the "Continue" button to continue. 15. Click the "Confirm" button to confirm your order. 16. Check the order success notification. | The message "Your order has been placed!" displays confirming that the order has been placed successfully. | As expected result |
| TC009:testCheckoutWithNewAddress | Log in, checkout with HTC Touch HD using new address, enter details, finalize order. | <ol style="list-style-type: none"> 1. Go to the OpenCart login page. 2. Enter your email and password in the corresponding fields. 3. Click the "Login" button to log in. 4. Go to the HTC Touch HD product page. 5. Click the "Add to Cart" button to add the product to your cart. 6. Go to your cart. 7. Click the "Checkout" button to start the checkout process. 8. Select the "New Address" checkbox | The message "Your order has been placed!" displays confirming that the order has been placed successfully. | As expected result |

| | | | | |
|------------------------------|--|--|--|----------------------|
| | | <p>if it is not already selected.</p> <p>9. Fill in your personal information and new address in the corresponding fields.</p> <p>10. Click the "Continue" button to confirm the address information.</p> <p>11. Click the "Continue" button to select a shipping method.</p> <p>12. Click the "Continue" button to confirm the payment method.</p> <p>13. Click the "Confirm" button to confirm the order.</p> <p>14. Check the successful order notification.</p> | | |
| TC010:testLoginAndCheckout | Log in, add HTC Touch HD to cart, proceed with checkout, and complete order. | <p>1. Go to the OpenCart home page.</p> <p>2. Click on the account menu to open the options list.</p> <p>3. Select "Login" to enter the login page.</p> <p>4. Enter the email and password, then click the "Login" button.</p> <p>5. Check that the user is redirected to the account page after successful login.</p> <p>6. Click on the account menu again to open the options list.</p> <p>7. Select "Logout" to log out.</p> <p>8. Check that the user is redirected to the home page after successful logout.</p> | <p>- After successful login, the URL contains "account/account".</p> <p>- After successful logout, the URL contains "account/logout", then redirects to "common/home".</p> | As expected result " |
| TC011:testWrongEmailLogin | Enter incorrect email format and attempt login, check for error message. | <p>1. Go to the OpenCart login page.</p> <p>2. Enter a wrongly formatted email ("wrongemail.com") in the email field.</p> <p>3. Enter any password ("wrongpassword") in the password field.</p> <p>4. Click the "Login" button to log in.</p> | <p>- An error message is displayed as a red warning.</p> <p>- The message content is: "Warning: No match for E-Mail Address and/or Password."</p> | As expected result |
| TC012:testInvalidWrongLogin | Enter valid email with wrong password, attempt login, verify error message. | <p>1. Go to the OpenCart login page.</p> <p>2. Enter the correct email format ("leduyquan2574@gmail.com") in the email field.</p> <p>3. Enter the incorrect password ("wrongpassword") in the password field.</p> <p>4. Click the "Login" button to log in.</p> | <p>- An error message is displayed as a red warning.</p> <p>- The message content is: "Warning: No match for E-Mail Address and/or Password."</p> | As expected result |
| TC013:testEmptyPasswordLogin | Enter email, leave password blank, try login, confirm error. | <p>1. Go to the OpenCart login page.</p> <p>2. Enter a valid email ("leduyquan2574@gmail.com") in the email field.</p> | <p>- An error message appears as a red warning.</p> <p>- The message</p> | As expected result |

| | | | | |
|---|---|---|--|--------------------|
| | | 3. Leave the password field blank. 4. Click the "Login" button to try logging in. | content is: "Warning: No match for E-Mail Address and/or Password." | |
| TC014:testEmptyEmailLogin | Enter password, leave email blank, try login, confirm error. | 1. Go to the OpenCart login page. 2. Enter an invalid password ("wrongpassword@") in the password field. 3. Leave the email field blank. 4. Click the "Login" button to try to log in. | - An error message appears as a red warning. - The message content is: "Warning: No match for E-Mail Address and/or Password." | As expected result |
| TC015:testSpecialCharacterEmailLogin | Enter special characters in email field, try login, check error. | 1. Go to the OpenCart login page. 2. Enter the special character string (!@#\$%^&*()) in the email field. 3. Enter a valid password ("password") in the password field. 4. Click the "Login" button. | - An error message appears as a red warning. - The message content is: "Warning: No match for E-Mail Address and/or Password." | As expected result |
| TC016:testSpecialCharacterPasswordLogin | Enter valid email with special character password, attempt login, check result. | 1. Go to OpenCart login page. 2. Enter a valid email (leduyquan2574@gmail.com) in the email field. 3. Enter a special character string (!@#\$%^&*()) in the password field password. 4. Press the "Login" button. | - An error message appears as a red warning. - The message content is: "Warning: No match for E-Mail Address and/or Password." | As expected result |
| TC017:testSpecialCharacterPasswordAndEmailLogin | Enter special characters in both email and password, try login, confirm error. | 1. Go to the OpenCart login page. 2. Enter the special character string (!@#\$%^&*()) in the email field. 3. Enter the special character string (!@#\$%^&*()) in the password field. 4. Click the "Login" button. | - An error message appears as a red warning. - The message content is: "Warning: No match for E-Mail Address and/or Password." | As expected result |
| TC018:testSqlInvalidToLogin | Test SQL injection string in login fields, check for error. | 1. Go to the OpenCart login page. 2. Enter a SQL injection string (' UNION SELECT NULL, username, password FROM users --) into the email field. 3. Enter the same SQL string into the password field. 4. Press the "Login" button. | - A red warning error message will appear. - The message content is: "Warning: No match for E-Mail Address and/or Password." | As expected result |

| | | | | |
|--------------------------------------|---|---|--|--------------------|
| TC019:testRegisterValidData | Complete registration with valid data, confirm successful registration. | <ol style="list-style-type: none"> 1. Go to the OpenCart registration page. 2. Fill in the "First Name" field with a valid value ("Le Duy"). 3. Fill in the "Last Name" field with a valid value ("Le Duy"). 4. Fill in a valid email ("leduyquan19112003@gmail.com"). 5. Fill in a valid password ("Quan19112003"). 6. Check the checkbox to agree to the privacy policy. 7. Click the "Continue" button. | <ul style="list-style-type: none"> - The page will redirect to a success confirmation page. - A success message will appear with the content: "Your Account Has Been Created!" | As expected result |

| TC021:testRegisterInvalidEmail | Register with invalid email, check for email error. | <ol style="list-style-type: none"> 1. Go to the OpenCart registration page. 2. Enter valid information for the "First Name" and "Last Name" fields. 3. Enter an invalid email address. 4. Enter valid information for the "Password" field. 5. Click the checkbox to accept the | <ul style="list-style-type: none"> - Error message for the "Email" field with the content: "E-Mail Address does not appear to be valid!" | As expected result |

| | | | | |
|---|---|---|---|--------------------|
| | | privacy policy and the "Continue" button. 6. Confirm that the error message for the email field displays correctly. | | |
| TC022:testRegisterExistAccount | Try to register with an existing email, confirm error message. | 1. Go to the OpenCart registration page. 2. Enter valid information for the "First Name" and "Last Name" fields. 3. Enter an email address that was previously used for registration. 4. Enter valid information for the "Password" field. 5. Click the checkbox to accept the privacy policy and the "Continue" button. 6. Confirm that the error message for the email field displays correctly. | - Error message for "Email" field with content: "E-Mail Address is already registered!" | As expected result |
| TC023:testNoClickPolicy | Attempt registration without accepting privacy policy, check error message. | 1. Go to the OpenCart registration page. 2. Enter valid information for the "First Name", "Last Name", "Email" and "Password" fields. 3. Do not check the checkbox to agree to the privacy policy. 4. Click the "Continue" button. 5. Confirm that the error message for not agreeing to the privacy policy displays correctly. | - An error message with the content: "Warning: You must agree to the Privacy Policy!" will appear when the checkbox is not checked. | As expected result |
| TC024:testRegisterSpecialCharactersInName | Register with special characters in name fields, confirm error. | 1. Go to the OpenCart registration page. 2. Enter special characters (e.g. !!!!!!!) in the "First Name" field. 3. Enter special characters (e.g. !!!!!!!) in the "Last Name" field. 4. Fill in valid information for email and password. 5. Agree to the privacy policy. 6. Click the "Continue" button. 7. Check if the displayed error message is correct. | - An error message with the content: "Warning: First Name must be between 1 and 32 characters!" or "Warning: Last Name must be between 1 and 32 characters!" will be displayed. | As expected result |
| TC025:testResponsiveDesign | Check element visibility on desktop, tablet, mobile views; test cart functionality. | 1. Go to the OpenCart home page. 2. Set the viewport size for each device (Desktop, Tablet, Mobile). 3. Check the visibility of the elements: search box, 'My Account' menu, and main content. 4. Type the keyword 'Iphone' in the search box and press Enter. 5. Click the 'Add to Cart' button. | Responsive adapts to devices | As expected result |

| | | | | |
|--|--|--|--|--------------------|
| | | 6. Check if the cart contains products. | | |
| TC026:testCorrectSearchProducts | Log in, search for "iPhone", verify search results. | 1. Initialize WebDriver and go to login page. 2. Login with email and password. 3. Call search_products function with "Iphone". 4. Wait for results to load. 5. Check the list of results. | The returned product list is not empty. | As expected result |
| TC027:testSearchWithNoExistProducts | Search for nonexistent product, verify no results. | 1. Initialize WebDriver and go to login page. 2. Login with email and password. 3. Call search_products function with "LeDuyQuanDepTrai". 4. Wait for results to load. 5. Check the results list. | The returned product list must be empty. | As expected result |
| TC028:testSearchWithUppercaseAllText | Search for "IPHONE" in uppercase, confirm expected results. | 1. Initialize WebDriver and go to login page. 2. Login with email and password. 3. Call search_products function with "IPHONE". 4. Wait for results to load. 5. Check the list of results. | The returned product list is not empty. | As expected result |
| TC029:testSearchWithLowercaseAllText | Search for "iphone" in lowercase, confirm expected results. | 1. Initialize WebDriver and go to login page. 2. Login with email and password. 3. Call search_products function with "iphone". 4. Wait for results to load. 5. Check the list of results. | The returned product list is not empty. | As expected result |
| TC030:testSearchSpecialCharacters | Search using special characters, verify search results. | 1. Initialize WebDriver and go to login page. 2. Login with email and password. 3. Call search_products function with "!@#\$%^&*()_+". 4. Wait for results to load. 5. Check the list of results. | The returned product list must be empty. | As expected result |
| TC031:Test the search_products function with a query with surrounding whitespace (" Iphone "). | Search with leading/trailing whitespace, check for expected results. | 1. Initialize WebDriver and go to login page. 2. Login with email and password. 3. Call search_products function with " Iphone ". 4. Wait for results to load. 5. Check the list of results. | The returned product list is not empty. | As expected result |
| TC032:testSearch | Search with | 1. Initialize WebDriver and go to login | The returned | As expected |

| | | | | |
|--|---|---|---|--|
| chWithWhitesp aceSurrounded | leading/trailing whitespace, check for expected results. | page. 2. Login with email and password. 3. Call search_products function with empty query. 4. Wait for results to load. 5. Check the result list. | product list must be empty. | result |
| TC033:testSear chEmptyChara cters | Attempt search with an empty query, confirm error or no results. | 1. Initialize WebDriver and go to login page. 2. Login with email and password. 3. Call search_products function with "!Iphone". 4. Wait for results to load. 5. Check the list of results. | The returned product list must be empty. | As expected result |
| TC034:testSear chWithSpecial CharacterInTex t | Search with special characters in text, confirm correct handling. | 1. Initialize WebDriver and go to login page. 2. Login with email and password. 3. Call search_products function with long string. 4. Check result list. 5. Check page width and viewport width. | The returned product list must be empty. The page width cannot exceed the viewport width. | As expected result |
| TC035:testSear chWithLongCh aracterInText | Test long string search, verify page and viewport display. | 1. Launch WebDriver and go to the login page. 2. Log in with your email and password. 3. Go to the OpenCart homepage. 4. Go to the iPhone product page. 5. Click on the "Write a review" link. 6. Enter your review and select a rating. 7. Click the submit review button. 8. Check the success message. | The review is submitted successfully and displays the message "Thank you for your review". | The page layout is broken and has horizontal scrolling. |
| TC036:testCo mpareProducts | Add two products to comparison list, confirm both appear in comparison. | 1. Open the product page for the first product. 2. Get the product name of the first product. 3. Click on 'Add to Compare' for the first product. 4. Open the product page for the second product. 5. Get the product name of the second product. 6. Click on 'Add to Compare' for the second product. 7. Navigate to the comparison page. 8. Get the product names displayed on the comparison page. | Both products should be successfully added to the comparison list, and their names should appear on the comparison page. | As expected result |

| | | | | |
|-------------------------------|--|---|---|---|
| | | 9. Check if both product names are displayed on the comparison list. | | |
| TC037:testClickDesktopsAndMac | Navigate to Mac subcategory under Desktops, confirm page title. | <ol style="list-style-type: none"> 1. Navigate to the home page. 2. Click on the "Desktops" menu in the navbar. 3. Click on the "Mac" subcategory under the "Desktops" menu. 4. Verify that the page title contains the word "Mac". | The page should navigate to the Mac subcategory, and the page title should contain "Mac". | As expected result |
| TC038:testShowAllDesktops | Click "Show All Desktops", verify all desktops display. | <ol style="list-style-type: none"> 1. Click on the "Desktops" menu in the navbar. 2. Click on the "Show All Desktops" link. | The page should navigate to the "Show All Desktops" section, displaying all available desktops. | As expected result |
| TC039:testMenuNavigation | Navigate through menu items and sub-items, verify page titles | <ol style="list-style-type: none"> 1. Click on the "Desktops" menu item. 2. Define the main menu items and their corresponding sub-items. 3. Hover over the main menu item. 4. For each sub-item, click and verify the page title matches the sub-item. 5.
